

## Liste des revues AERES pour le domaine

### ÉCONOMIE – GESTION

(Mise à jour : le 17 octobre 2012)

*Pour de nombreuses disciplines de Sciences humaines et sociales, la production de livres reste la forme majeure de l'œuvre scientifique. Parallèlement, la multiplication des revues constitue aujourd'hui un outil essentiel d'animation et de diffusion permanentes dans le milieu de la recherche.*

*La profusion internationale des périodiques illustre non seulement la croissance de la communauté mondiale des chercheurs mais aussi un profond changement dans la manière de publier les résultats de la recherche. Les approches pluridisciplinaires dominent aujourd'hui le paysage intellectuel et de nombreux chercheurs publient logiquement dans des revues qui relèvent d'autres disciplines que des leurs. Les experts qui évaluent les unités de recherche ne peuvent plus espérer connaître l'ensemble des périodiques dans lesquels les publications ont été réalisées. L'AERES a donc décidé de leur fournir la liste des revues qui, par discipline ou domaine, tiennent une place importante dans la diffusion des résultats de la recherche à l'échelle nationale et surtout internationale.*

*Des commissions disciplinaires regroupant des représentants des sections du CoNRS et du CNU, des membres de l'IUF, des personnalités qualifiées étrangères et les délégués scientifiques de l'AERES ont été fondées en 2008 ; elles ont abouti à l'élaboration des premières listes, publiées sur le site de l'AERES. Elles ont été actualisées en tenant compte du degré d'internationalisation, de l'organisation et des pratiques des milieux de chaque discipline. Les commissions ont cherché à répondre aux sollicitations de certains périodiques, récents ou non sélectionnés, ainsi qu'à la prise en compte des revues en ligne. Elles ont abouti à un consensus qui se traduit par les nouvelles listes publiées. Les plus nombreuses définissent un périmètre scientifique, sans classement. D'autres, qui correspondent aux disciplines dans lesquelles les bases bibliographiques internationales sont majoritairement acceptées par la communauté scientifique, proposent une première hiérarchisation.*

*Chaque commission disciplinaire d'actualisation de la liste des revues AERES d'un domaine est constituée selon les règles générales fixées par l'Agence. L'actualisation des listes est effectuée en référence aux « Éléments de caractérisation des revues en Sciences humaines et sociales » qui sont présentés dans le Référentiel de l'AERES (p. 26) (<http://bit.ly/PxGLul>)*

*Les listes des revues constituent des outils d'évaluation propres à chacune des disciplines de recherche et dont l'usage demeure à l'appréciation des comités.*

### **Modalités d'élaboration de la liste**

Dans le cadre de la réactualisation de la liste AERES 2010, deux réunions de travail ont eu lieu pendant l'été 2012 afin de préparer une liste pour l'évaluation des Entités de Recherche de la vague D (2012-2013).

Pour l'évaluation de cette vague, la Commission a retenu le principe de la fusion de la liste des revues 2011 de la FNEGE et du CoNRS (version 3.01, incluant donc les revues indiquées MAD « Multidisciplinaire et autres disciplines, et celles indiquées NR « Nouvelles revues prometteuses »). En outre, ont été intégrées des revues en Economie et en Gestion, essentiellement dans des champs non complètement couverts par ces listes. Au total, ceci a abouti à l'inclusion supplémentaire d'une centaine de revues d'économie et de gestion. La liste AERES 2012 en Economie-Gestion comprend ainsi 1 005 revues.

Le principe d'un classement des revues a été également retenu au cours de ces réunions. Le classement appliqué est celui de l'AERES à 3 niveaux : A, B, et C. Le classement a été effectué sur la base des classements existants de la FNEGE et du CoNRS. Les revues notées 1g, 1e et 2 sont classées A, les revues notées 3 en B et les revues notées 4 en C. Pour les revues classées de façon différente dans les deux listes (CNRS et FNEGE), le classement le plus élevé sera retenu. Les revues provenant des listes MAD et NR du CoNRS, ainsi que les revues supplémentaires adoptées par la Commission ne sont pas classées. La répartition des revues est donnée dans le tableau suivant :

Classement	Nombre	Pourcentage
A	288	28,7. %
B	306	30.4 %
C	211	21.0 %
<b>Reuves classées</b>	<b>804</b>	<b>80.1 %</b>
<i>Sans classement</i>	201	19.9 %
<b>TOTAL</b>	<b>1 005</b>	<b>100 %</b>

Il n'est pas du ressort de l'AERES de procéder à l'évaluation individuelle des enseignants-chercheurs ou des chercheurs. Le classement des revues est l'un des indicateurs permettant aux experts d'apprécier la qualité de la production scientifique d'une unité de recherche. Néanmoins, il doit être complété par une analyse des différents types de productions scientifiques de l'entité évaluée (ci-dessous est précisée la notion de "produisant").

La liste AERES 2012 en Economie-Gestion présente les 1 005 revues par ordre alphabétique avec leur classement, ainsi que l'ISSN (seule l'ISSN de la version papier est indiquée). Un fichier Excel de cette liste est également disponible.

### **Critères retenus pour la caractérisation comme « produisant » des enseignants-chercheurs et des chercheurs en Economie-Gestion.**

Un indicateur demandé aux Unités de Recherche lors de leur évaluation est le taux de « producteurs ». La Commission a précisé, lors de ces réunions, cette notion de « produisant » pour les enseignants-chercheurs et les chercheurs en Economie et Gestion.

Un enseignant-chercheur sera considéré comme produisant s'il a réalisé 3 produits de recherche dont au moins 2 articles dans des revues appartenant aux listes de revues de l'AERES, en 5 ans. Pour un chercheur, 5 produits de recherche dont au moins 3 articles dans des revues appartenant aux listes de revues de l'AERES, en 5 ans. Pour qualifier un produisant, toute revue référencée dans la liste classée ou non-classée sera considérée. La période de 5 ans considérée pour la vague D va du 1 janvier 2007 au 31 décembre 2011, sachant qu'un article accepté avant cette date pour une publication ultérieure peut être validé.

Afin de prendre en compte l'interdisciplinarité, les experts des comités de visite pourront recourir aux listes établies dans les autres domaines disciplinaires de l'AERES (que ces listes soient classées ou non) pour valider les publications des unités et chercheurs travaillant aux frontières de l'Economie et de la Gestion. Il est précisé que seules les listes de l'AERES doivent être considérées.

Dans leur décompte des producteurs, les comités d'experts devront considérer les situations individuelles particulières des nouveaux enseignants-chercheurs ou chercheurs ou des personnels ayant des charges administratives lourdes. De plus, les comités d'experts pourront prendre en compte comme autres produits de la recherche: les ouvrages scientifiques, les chapitres d'ouvrages scientifiques, les actes de colloques (s'il existe une sélection des communications avec un travail d'édition scientifique), les logiciels ou les bases de données mises à disposition de la communauté, etc. Les experts pourront consulter à cette fin le document : Critères d'évaluation des entités de recherche : Le référentiel de l'AERES (Mai 2012).
